

HAMPTON

FAMILY FORESTS

A better way every day.

Hampton Family Forests Scholarship

Hampton Family Forests is family-owned timberland and wood manufacturing company that sustainably manages forests in the Skagit Valley. We are committed to stewarding our forests for the multiple benefits that they bring to those who live in the Skagit Valley, including clean water, wildlife habitat and needed wood products.

The Hampton Family Forests scholarship was established in 2022 and honors those students who are pursuing a career in the timber industry or plan to attend a vocational, trade or forestry school. Students who are active in Future Farmers of America or Loggerodeo are also considered.
